Objective

To obtain a web development or software engineering internship.

Education

Bachelor of Science, Computer Science

Stony Brook University, Stony Brook, NY

Specialization: Human-Computer Interaction

Expected May 2017

GPA: 3.11, Fall 2015 Dean's List

Associate of Science, Computer Science

Columbia-Greene Community College, Hudson, NY

Phi Theta Kappa Honor Society

May 2007

GPA: 3.75

Experience

SAI, Inc, Ronkonkoma, NY

Online Automotive Parts Merchant

Assistant eCommerce Web Developer

July 2013-March 2015

- Learned and utilized PHP to fix defective scripts. As a result, colleagues were able to submit large orders to our suppliers' server and the script alerted them to problems and syntax errors.
- Utilized HTML and CSS to improve company's eBay listings. As a result, our listings stood out from other listings because we included attractive design elements and properly formatted product information.
- Learned how to use eBay's Parts Compatibility Tool. Using this tool, I was able to add a list of compatible vehicles to thousands of our part listings. This allowed customers to easily look up the correct part for their vehicle (increasing sales), cut down on returns from customers who purchased the wrong part, and saved the customer service department from having to field calls regarding vehicle compatibility.
- Focused on identifying inventory which was not properly listed on Amazon, and added hundreds of parts to Amazon, resulting in an increase in sales through that channel.
- Streamlined online listing process, allow the company to quickly and efficiently list excess automotive parts on eBay. As a result, we were able to list hundreds of parts which had been backed-up in the old listing process.

Bethany Bible Training Center, Salisbury Center, NY

Retreat Center and Bible School

Administrative Assistant to the President

March 2011-December 2012

- Provided administrative support to the President and Dean
- Planned, promoted and executed several yearly conferences and youth camps
- Coordinator of Partners Donation Program - Utilized Microsoft Access to organize and prepare monthly donation receipts for Partners
- Utilized Microsoft Access, SQL and Visual Basic to update and maintain school database, making the database more user-friendly

Skills

- Programming: Java, HTML, CSS, Javascript, PHP, JSON, jQuery, AJAX, XML, Bootstrap
- Software: Netbeans IDE, Microsoft Office Suite, Adobe Photoshop, ChannelAdvisor
